cylinder version of the four-cylinder Lycoming O-320

Lycoming O-480 - Wikipedia

Along with Continental and Franklin, Lycoming was a basic provider of engines for the ubiquitous bright yellow Piper Cub, which sold for less than \$2,000 and was synonymous with small general aviation aircraft for many years. The O-480 was a high performance, air-cooled, six-cylinder, horizontally-opposed engine.

Operating the Lycoming G0-435/ GO-480/Go-540 Engines The Lycoming geared engines have acquired a bad reputation over the years, quite undeserved. These are very solid, reliable engines, but only if operated correctly! Operated like the engine on your Cessna, they have a tendency to be quite short lived, and very expensive.

The Lycoming ALF 502/LF 507 (now Honeywell) is a geared turbofan engine produced by Lycoming Engines, AlliedSignal, and then Honeywell Aerospace.. The original YF102 was developed at the Stratford Army Engine Plant in Connecticut by adding a fan to the Lycoming T55 engine, which was used as the gas generator. Six engines were built for the Northrop YA-9 prototype ground-attack aircraft.
