Performance
information in this
booklet is intended for
estimating purposes
only. Because of the
many variables
peculiar to individual
jobs (including material
characteristics,
operator efficiency,
underfoot conditions,
altitude, etc.), neither

Handbook is intended as an aid which, when coupled with experience and a good knowledge of local conditions, can assist in estimating true machine performance. Many sections of the Handbook include tables or curves showing cycle times or hourly production figures for Caterpillar machines under certain conditions.
