openCRX Installation Guide for JBoss 4 and JBoss 5 - Version 2.3 Installing openCRX for JBoss 3 Installing openCRX for JBoss In a first step, install JBoss by extracting the JBoss distribution a directory of your choice, e.g. D:\jboss on Windows or /opt/jboss on Linux. From now on we will refer to this directory as JBOSS_HOME.

openCRX Installation Guide for JBoss 4 and JBoss 5

For web applications and services, usually you only use the AJP port when you also install a web server (e.g. Apache). If you don't install a webserver, you must allow the access to the HTTP and HTTPS ports. If you are securing your web applications, disabling other ports in the JBoss is not absolutely necessary.
